CLARION STATE COLLEGE — *VENANGO CAMPUS*

1801 WEST FIRST STREET • OIL CITY, PENNSYLVANIA 16301 • (814) 678-6691

Dear Students,

Another academic year has drawn to a close, and with it another set of memories are a part of all our lives. The college experience is a unique one, for it brings together a number of generations in intimate, often intense, contact. The learning of information, the sharing of ideas, the exchange of emotions, the anxiety and the satisfaction are all part of the living-learning environment, and provide each of us with growth experiences whose meaning become clearer only with the passing of years and the unfolding of each of our destinies. I hope each of you has had a meaningful experience and will look back fondly on your years at Venango Campus. Each one of us has to construct a meaning for our existence, and it is my hope that your experience at Venango will provide you with a small portion of the material necessary for the task. May your future be filled with meaning, challenge, and accomplishment.

Sincerely,

Charles Blank
Administrative Head

CHARLES BLANK

FRANK M CLARK

A man's life's work cannot easily or adequately be summarized by a few short lines. What Venango Campus is and has been for the past twelve years can be accredited to the contributions and dedication of one man, Mr. Frank Clark.

Mr. Clark graduated from Indiana State Teacher's College and received his M.S.A. from Ohio University in Athens, Ohio. He continued to work on his degree at the University of Pittsburgh. Mr. Clark spent two summers in England studying at Royal Holloway College and Wroxton.

Before coming to Venango Campus in the summer of 1967, Mr. Clark taught Language Arts at Cranberry High School. Hew was Acting Administrative Head at Venango Campus from 1976 to 1977. Mr. Clark has contributed greatly to Venango Campus by his profound dedication in Speech, Communications, and Theatre Production. He was instrumental in arranging productions with Community Playhouse of Oil City and as a result, Venango Campus has hosted many fine theatrical productions.

We the Pathfinder staff of Venango Campus, are honored to be able to dedicate the 1979 Pathfinder to Mr. Frank Clark.

We Want to Be Your Bank.

There are lots of good banks in town. But only one bank is everything your bank should be. First Seneca Bank.

Always open. That's very good!

At The Always Open Bank you can get cash whenever you need it. Night or day. Saturday, Sunday, holidays. All the times other banks are closed.

Better than free checking.

Our personal checking accounts are better than just free. No minimum deposit. No minimum balance. No limit on the number of checks you can write. And wouldn't you like No-Bounce check protection? It's here.

Truly better savings plan.

Our Unimatic Savings Plan pays 5% interest from day of deposit to day of withdrawal. And interest is compounded every day. You never forfeit a penny of interest.

Better borrowing, too!

The Extra Cash Account is a better way to borrow money. You apply only once. Then, whenever you need money, just write a check.

Come in!

A visit to any First Seneca office is all it takes to see how much more we offer you than any other bank.

All for you.

Because we want to be your bank.

FIRST SENECA BANK

Your ticket to the FUTURE

Where are you heading? A career? Public service? Whatever your goal, you have our best wishes for success. A relationship with Northwest Bank will help each step of the way. Experienced advice in money matters. Helpful services. A solid base for your planning. If you're going to live or work in Northwest Pennsylvania, stop by and get acquainted. That's how it all begins.

Speaking of Koppers

"A broadly diversified \$1.1 billion-sales company whose product line ranges from blast furnaces to shirt buttons. Koppers went through the recession and the capital spending drought like Jimmy Carter campaigning in Georgia."

— *Forbes*

"Next year shapes up as a good one. For one thing, as a diversified capital-goods supplier, Koppers stands to benefit as business spending picks up steam. For another, thanks to a stake in pollution controls, it's a likely gainer from new President's strong environmental stress."

— *Barron's*

"With 239 manufacturing facilities turning out more than 100 types of products which are sold into 13 primary end markets, Koppers can fairly be called . . . a historically logical conglomerate, with each extension of its expertise following naturally from the last."

— *Business & Energy
International*

"Koppers own capital spending is going to continue to be very aggressive," he said, involving more dollars this year than last and 'with 1977 ahead of 1976' . . . the firm has been fortunate to be able to plow back record earnings into facilities expansion while maintaining its dividend yield . . ."

— *Pittsburgh Post-Gazette*

"Koppers Co. of Pittsburgh is among the many corporations around the country that have made it easier for the public to understand their financial operations."

— *Indianapolis News*

"Recession hardly took place as far as diversified Koppers Co., Inc. is concerned . . . profitability has been rising for a good span of years."

— *Iron Age*

". . . an Arthur D. Little market survey projects a tripling of U.S. air and water control equipment sales by 1980 to more than \$3 billion . . . Giant corporations with a growing stake in the field include Combustion Engineering, Carborundum, Koppers, Monsanto, General Tire & Rubber, Hercules, Bendix, Textron."

— *Cincinnati Enquirer*

"A skein of profit increases in recent years has prompted people who follow such things to say, 'Somebody must be doing something right at Koppers Co.'"

— *The Pittsburg Press*

"Good reviews. Good forecasts."

— *Koppers*

EDITORS' MESSAGE

The 1978-1979 PATHFINDER is now a reality. After a year of planning, drawing, and typing, the members of the PATHFINDER staff have made those first ideas into a finished product. Many people are needed to plan, take pictures, draw layouts, write copy, and do the countless little tasks that are required to produce a good yearbook. We would like to thank everyone who worked with us this year, especially our advisor Mrs. T. Audean Duespohl, who kept us going the whole year through. We would also like to invite new faces to add to our staff in the coming year. New life is a must for creativity, no matter what your skill, contact our advisor Mrs. Duespohl and see what you can do for your next yearbook.

We have tried to capture the spirit of life at Venango and put it between the pages of this book. Hopefully you will look through this PATHFINDER in years to come and remember "THE WAY WE WERE."
